

S. Nicole Fehrenbach, M.P.P. is the Senior Research and Evaluation Associate at the Center for Innovation, and is responsible for the research and evaluation efforts of the Center's programs and projects. She manages the day-to-day research activities and staff, and her work focuses on study design, data collection, quantitative and qualitative analysis, and translation of results into actionable and relevant findings.

Ms. Fehrenbach joined the Center for Innovation in the fall of 2001 after working in State and Federal research organizations, private managed care, and academic settings. Her background experiences include evaluation of public health systems for children, Medicare policy analysis, quality of care indicators in chronic conditions, public health surveillance with private health care systems, and cost-effectiveness and outcomes studies.

Ms. Fehrenbach received her master's degree in public policy from Georgetown University (1995) and her bachelor's degree in political science and quantitative business (1993) from Rosemont College. She is currently completing her dissertation work in the Joint Ph.D. Program in Public Policy with the Georgia Institute of Technology and Georgia State University, concentrating on health policy and analysis and evaluation methods.
